### SKI SIZING GUIDE

Ski selection, both model and length, always will be a very personal and subjective decision. Optimal ski length is typically determined by the following order: **weight, ability, height, aggressiveness**. Less aggressive advancing skiers should err on the shorter size, while more aggressive and accomplished skiers may choose to move up a size.

UNISEX	Ski Type		Weight		Height		Experience	
	Weight (kg)	Weight (lbs)	Height (cm)	Height (ft/in)	Experience	Experience	Experience	Experience
UNISEX	ALL-SNOW		80-90 kg	175-195 lbs	152-161	4'10"-5'3"	Beginner	Beginner
